Figure out where you are going to be using your license the most and go from there. If you are going to be using it mostly in your car, get a good mobile radio. If you are going to be operating mostly on foot or horseback then a HT is probably the best option. Up until a few years ago for a decent HT, you were looking at \$250+, and if you wanted a mobile radio it was \$300+. So if you only had \$400 to spend, it was pretty much one or the other.
