Earlier, the cigarette lighter socket was based on a coil and reel system. It consisted of a cylindrical receptacle and a removable plug having a coiled strip. The plug is inserted into the receptacle to form an electrical circuit. it turns coiled strip to become red hot and you use it to lighten up your cigarette.

How To Remove Cigarette Lighter Socket - DrCarPolisher

This video describes the process required to remove cigarette lighter housing from VAG vehicles. For best results use VAG tool number T40148 as used in this ...

Volkswagen Audi Cigarette Lighter housing Removal - YouTube

Removing the lighter was as easy as a previous post said. I eased the metal part of the lighter with a small screw driver. It slid out a half inch or so I then grabbed it with my fingers and twisted it a quarter to a half turn it then came out further, twisting and pulling with very little back pressure it popped right out.

How do you remove a cigarette lighter | Tacoma World

Check for any debris or objects inside the lighter. Contaminants can cause obstructions inside the lighter and prevent the coils from making contact. Using a toothpick, pick out any dirt or contaminants inside the socket. Remove the loosened bits using a car vacuum.

How to Fix Cigarette Lighter in Car - The Simplest Ways ...

Okay, I've searched and searched but haven't found a workable answer to the question of how to remove the cigar lighter socket from a DII. RAVE says "Release cigar lighter body from console and remove." with no clue about how to do so. One post on another forum says to simply pry it out but I've applied a lot of pressure to it with no success.

Cigarette Lighter Removal | Jeep Wrangler Forum

I replaced the cigarette lighter in the middle with a USB charger gadget. You'll need to use something pointy like a box knife to get under this little tabs. It doesn't take much effort to pull them up. Once you do, you'll unlock the female sockets inside of the connector and be able to pull them out.

How do you remove the cigarette lighter panel? | IH8MUD Forum

The lighter fuse in an Avanti is 14 amp, but that's based on factory wiring and the draw the factory lighter is rated. An aftermarket lighter may use the same or different, plus the wire gauge you use in stalling it. Factory wiring with all the years on it may have increased resistance from age so it's all that more reason to have a fuse.
