belt will leave a motorist stranded by the side of the road, with only one way to get the car home or to a workshop: on the back of a tray truck.

### **ADVICE: When do I need to replace my timing belt ...**

Ford recommends that you replace the timing belt at 60,000 miles for almost all of its models. The one exception is the Ford Probe. If you have a Probe from 1999-2004, have the timing belt inspected every 120,000.

### **How to Know When to Replace Your Timing Belt**

A light-emitting diode (LED) is a semiconductor light source that emits light when current flows through it. Electrons in the semiconductor recombine with electron holes, releasing energy in the form of photons. The color of the light (corresponding to the energy of the photons) is determined by the energy required for electrons to cross the band gap of the semiconductor.
