Im impressed so far. The literature is pretty sparse and unspecific, but Wafer has been good answering my Q's that were pretty murky in the manual. In all my online research there seems to be confusion re the ATC air ports and the use of 'Air Return'. Even Fox seemed to be have his ATC plumbed poorly.

I purchased a fiber laser engraving machine from china a few months ago. EZCAD 2 kept crashing on the Windows 7 computer they sent me. Finally im guessing some of the components in the computer they sent with the machine were less than adequate and the computer took a turn.

Newbie EZCAD2 for Windows 10 OS fiber laser engraving machine

The KS manual linear feeder with tilting stops is a versatile, flexible and budget friendly linear feeder solution. The more sophisticated CNC controlled Linear Rail feeder is the ideal device for structural steel and engineering workshops. Both solutions are capable to be adapted for any linear feeding of bars, tubes and profiles.
