Fiat 500L - Wikipedia

Use you tape measure to find out what the stock dimensions of your wheels are. Wheel dimensions are measured in diameter (15,16-17-inches, etc.) and width (6,7, 8-inches). Replacement wheels that are the same size as stock should go on without a problem. You can fit larger diameter and wider wheels, but you may run into clearance issues.

However, if you go too crazy and change your wheel size too much, it can cause some problems. When changing the car's original wheels and tires, the general rule of thumb is that you can go up or down by one inch. For example, if your car is currently riding on 17-in wheels, you can reduce the size to 16 inches.
