When you first start your TomTom START, it may need a few minutes to determine your position. In future, your position will be found much faster. To ensure good satellite reception, use your START outdoors and keep it upright. Large objects such as tall buildings can sometimes interfere with reception.

### TomTom START User Manual

In rare cases, your TomTom START may not start correctly or may stop responding to your taps. First, check that the battery is charged. To charge the battery, connect your START to the car charger. It can take 3 - 5 hours to fully charge the battery depending on the type of device. If this does not solve the problem, you can perform a reset.
